PROFILE

Business Analyst with two years of hands-on experience in process improvement, requirements elicitation, user acceptance testing and data visualisation. Skilled in Agile and Scrum, Jira-based delivery, Power BI dashboarding and stakeholder management. Demonstrated ability to translate operational and maintenance expertise into measurable process and cost improvements. Currently studying MRes in Artificial Intelligence in Business to deepen data-driven decision making for Fintech and Healthcare solutions.

EXPERIENCE

Business Analyst · Amdari Inc

Jul 2026 to Present

Manchester, UK

- Collaborated with cross-functional stakeholders to define project scope and document business requirements in BRD and PRD using Confluence, improving requirement clarity and alignment, resulting in a 30% reduction in project rework.
- Leveraged Excel, SQL, and Power BI to analyze operational datasets, generate performance dashboards, and provide insights that supported data-driven decision-making for 5+ project stakeholders.
- Built interactive Power BI dashboards to monitor project KPIs, sprint velocity, and operational metrics, improving leadership visibility into project performance and reducing reporting preparation time by 35%.
- Led sprint planning, backlog management, and issue tracking using JIRA and Azure DevOps, improving Agile delivery speed by 25% and enhancing team productivity by 20% through streamlined processes.
- Developed and maintained RACI Matrices for multiple projects, ensuring clear ownership of deliverables and reducing workflow bottlenecks by 15%, improving project timelines.
- Mapped, analyzed, and optimized business processes using Lucidchart and Visio, eliminating process redundancies and improving operational workflows by 20%, enhancing overall team efficiency.
- Spearheaded User Acceptance Testing (UAT), developing comprehensive test cases and managing defects in JIRA, reducing post-implementation issues by 40% and ensuring smooth system deployment.
- Facilitated the documentation of key project updates, sprint retrospectives, and decision logs in Confluence, improving transparency and communication across 5+ stakeholder teams and reducing miscommunication by 25%.

Business Analyst (Remote) · 10Alytics

Mar 2025 to Present

Remote

- Applied Agile project management and Scrum in a Jira-based delivery team, contributing to sprint planning, backlog refinement and sprint reviews to maintain delivery cadence.
- Mapped current and future-state processes, identified gaps and documented agreed fixes with cross-functional stakeholders to improve process efficiency.
- Defined project KPIs and built Power BI dashboards to visualise project and business performance, enabling stakeholders to track whether solutions met business needs.
- Facilitated requirements workshops, authored Business Requirements Documents and user stories with clear acceptance criteria to align business and development teams.
- Planned and supported User Acceptance Testing from test case creation to sign-off, coordinating developers and business users to validate delivered functionality.
- Supported change management and stakeholder communications using Slack, Zoom, Jira and Trello to keep users informed of progress and decisions.

Maintenance Supervisor · Gramen Petroserve Nigeria Limited
Aug 2022 to Apr 2025
Warri, Nigeria

- Led a team of 10+ technicians and electricians to deliver preventive and corrective maintenance across facilities.
- Designed and implemented a preventive maintenance schedule that reduced equipment downtime by 20%.
- Standardised repair procedures and parts usage, reducing repair costs by 15% and improving safety and audit readiness.
- Managed department budgets for facility upgrades, coordinated vendors and ensured projects met quality and compliance requirements.

Maintenance Officer · Gramen Petroserve Nigeria Limited
Aug 2017 to Aug 2022
Warri, Nigeria

- Coordinated routine inspections and servicing to maintain 100% adherence to safety standards and statutory checks.
- Maintained detailed maintenance records and inventory logs to improve parts accuracy and reduce repair turnaround times.
- Researched and negotiated equipment rentals, achieving annual savings of approximately $10,000 through better commercial terms.

Purchasing Officer · Gramen Petroserve Nigeria Limited
Nov 2011 to Aug 2017
Warri, Nigeria

- Reduced procurement costs by 15% through vendor consolidation, competitive bidding and bulk purchasing strategies.
- Managed supplier relationships and ensured on-time delivery by aligning purchasing plans with maintenance schedules.
- Analysed market trends to recommend cost-effective alternatives while maintaining required quality standards.

Warehouse Officer (Post NYSC) · Gramen Petroserve Nigeria Limited
Oct 2010 to Oct 2011
Warri, Nigeria

- Received, inspected and recorded incoming shipments, liaising with procurement, logistics and transport teams.
- Conducted regular stock audits and reconciled discrepancies to maintain accurate inventory levels.
